WORK EXPERIENCE

Macquarie Group — Dev-Ops Engineering Intern

DECEMBER 2020 - FEBRUARY 2021

As a DevOps Engineer, I was exposed and involved in SDLC of features of an originations application that includes the use of Salesforce, nCino, Java and Pega. My role was to help develop functionality for the origination of business loans and ensuring that the data was correctly retrieved and tested.

The Youth Co-Lab (TYCL) — Internal Team Member (IT/Web Coordinator)

OCTOBER 2019 - OCTOBER 2020

The Youth Co-Lab is a social enterprise that aims to provide opportunities and a safe space for all diverse groups and individuals to contribute to the community. My role was to help facilitate our programs such as Tea Talks, The Kitchen Co-Lab and innovating the website.

Coles — Technology Consultant Internship (Industry Partner Project)

JUNE 2020 - JULY 2020

Worked with an incredible team from different disciplines to research and provide recommendations on strategic traceability initiatives that Coles can implement to mitigate risk and strengthen brand confidence for its exported products.

Vietnamese Student Association (VSA) — IT and Web Director

JANUARY 2019 - DECEMBER 2019

Strived to create new and innovative content for the VSA Website. Worked with an amazing team to increase VSA's online presence and liaised with different stakeholders for the development of content.

TECHNICAL SKILLS

Strong background in Object-Oriented Programming especially in Java

Skilled in Python and MatLab

Proficient knowledge in Web Technologies (HTML, CSS and JavaScript), React Native

Proficient knowledge in Excel and Microsoft Word

Knowledge in C and Salesforce

AWARDS AND ACHIEVEMENTS

New Colombo Plan Mobility Grant recipient

Vice Chancellor's Global Mobility Award recipient

E12 Scholarship Recipient

Moneyspot Finance — Credit Analyst and Finance Officer

JANUARY 2019 - MARCH 2019

Worked with a very dynamic team to liaise with new and existing customers regarding loan applications. Responsible for credit assessments of small to medium credit contract applications.

HSC Success Tutoring — Math Tutor

AUGUST 2018 - JANUARY 2020

Part of an extremely talented team that provided an exceptional tutoring environment for students. Organised an interactive and engaging learning environment for students to improve their understanding.

PROJECTS AND EXTRACURRICULAR ACTIVITIES

www.uyen-tran.com - PERSONAL WEBSITE

Designed and developed a personal website to showcase the skills that I have learnt and gained at university and in my own time.

Furever - PET SEARCH MOBILE APP - <https://play.google.com/store/apps/details?id=com.riddle.tech.furever>

Worked with a team to design and develop a mobile application to search for pets that matches one's lifestyle. The app can also act as a marketplace between rescue centres, registered breeders, pet shops and sellers. The aim was to develop a one-stop-shop for educating the user about different types of pets, how to adopt them, and providing similar profiles available online etc.

Deloitte Insider Program - SEPTEMBER 2019

Shadowed the Platform Engineering team and assisted in creating project solutions for clients through the use of Robotics Process Automation programs such as UiPath.

EY Compass Program - OCTOBER 2019

Had first-hand experience learning about EY's service lines and participated in workshops to build future aspirations and evaluate career options to make smarter decisions.

PwC Tech Academy - OCTOBER 2019

Had the perfect opportunity to dive deep into understanding the impact of technological disruption on society and collaborating to solve real problems, especially within the IT Security and Tech Forensics Industry.

Microsoft Student Accelerator Program (MSA) - APRIL 2020

Gained a well-recognized opportunity to develop leadership and entrepreneurship by enhancing skills through technologies such as Git & GitHub fundamentals, Azure & Cloud Fundamentals, and Advanced Analytics & AI.

KPMG Women in STEM - March 2021

Gained a well-recognized opportunity to develop leadership and entrepreneurship by enhancing skills through technologies such as Git & GitHub fundamentals, Azure & Cloud Fundamentals, and Advanced Analytics & AI.

VOLUNTEER EXPERIENCE

Girls Programming Network (GPN) — Mentor

OCTOBER 2017 - PRESENT

Assisted students by teaching various coding languages such as Python and JavaScript and helped them build an interactive game through these languages.

NCSS Programming Challenge — Online Mentor

AUGUST 2017 - PRESENT

Helped run the competition and provided guidance to students by answering programming questions in regards to the competition through an online portal.
